DETAILED ACTION

Applicant's response to the previous office action is acknowledged on 02/03/05.

Claim Objections

Claims 6 and 7 are objected to because of the following informalities: the claims are depending on cancelled claims 1 and 2 respectively. Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 5-7 are rejected as failing to define the invention in the manner required by 35 U.S.C. 112, second paragraph.

The claim(s) are narrative in form and replete with indefinite and functional or operational language. The structure, which goes to make up the device, must be clearly and positively specified. The structure must be organized and correlated in such a manner as to present a complete operative device. The claim(s) must be in one sentence form only. Note the format of the claims in the patent(s) cited (for example US Patent No. 5,056,796 to Conville).

Please note that it is not acceptable to put a reference section of the specification as part of a claim as stated in claim 1. It is not also acceptable to include patent numbers in a claim as stated in claim 6.

Claim 5-7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 5, Applicant has listed multiple styles of playing a game. However the method steps are not shown. Thus, it is not clear what is being claimed. Also it is not clear what method steps are covered in claims 6 and 7.

AS BEST UNDERSTOOD THE CLAIMS ARE REJECTED BELOW.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 5-7 are rejected under 35 U.S.C. 102(b) as being anticipated by Conville (US Patent No. 5,056,796).

With regards to claim 5, as best understood, the Conville provides tossing game devices (20) that is capable of being used for different types of methods of play and use.

With regards to claim 6, no method step is provided to further limit the other claim.

With regards to claim 7, no method step is provided in this claim and it should be noted that the manner in which a claimed apparatus is intended to be employed does not differentiate the claimed apparatus from a prior art apparatus satisfying the claimed

structural limitations. Therefore, as the claims are best understood, Conville meets all the structural limitations of the claims.

Response to Arguments

Applicant should submit an argument under the heading "Remarks" pointing out disagreements with the examiner's contentions. Applicant must also discuss the references applied against the claims, explaining how the claims avoid the references or distinguish from them.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
